What Are the Risks

The Fund invests in equity and corporate debt securities and, to a lesser extent, government securities issued by entities throughout the world. Though the Fund may invest primarily in equity or equity-linked securities, including debt or preferred stock convertible or exchangeable into equity securities, the Fund will also seek income by investing in fixed or floating rate securities and debt obligations of government, government-related and corporate issuers in countries around the world. International securities risks include currency fluctuations and economic uncertainties. Interest rate movements may affect the Fund's share price and yield. Investments in emerging market countries are subject to a higher degree of risk. The Fund may be subject to a variety of risks in addition to those described herein. Please consult the Prospectus for a full discussion of these risks.

Important Information (continued)

Top Ten Equity Holdings: Top Holdings represent the largest holdings of the fund as of the date indicated. These securities do not represent all of the securities purchased, sold or recommended for advisory clients, and the reader should not assume that investment in the securities listed was or will be profitable.

Blended Yield: A blended measure used for balanced funds. The blended yield is the market-weighted average of the current yield of the fund's fixed income component and the dividend yield of the fund's equity component. This measure is gross of fees. Holdings of the same issuer have been combined.

Management Fee: Investment Management Fee is a monthly fee equivalent to a percentage of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except for the I shares classes. For a full description of all fees and charges that an investor may incur, including the initial sales charges and maintenance and company charges attributable to a class of shares of the Fund, please consult the current Prospectus.
